The World's First Vinyl-Clad Steel Carriage House Door

-  **Will not rot, split or check like wood**
-  **Will not rust like steel**
-  **Limited Lifetime Warranty**

"The Original", Since 1924

One of the major problems that has plagued steel carriage doors since their creation has been their less-than-authentic look. Enter the **American Legends Collection**. The Fimbel family has manufactured custom overhead doors of the highest quality since 1924. The American Legends Series meets our strictest standards.

Design Highlights:

-  American Legends is the only Vinyl-Clad Steel Carriage Door on the market today.
-  It offers exceptional energy efficiency, with an R-Value of 13.12 and overall thickness of 2 1/2"
-  Nonconducting Tongue & Groove Vinyl-Clad Interlocking Section Joints provide a weathertight seal
-  Smooth 20GA face with the look of real painted wood, twice the face thickness of other steel carriage doors
-  High-Impact PVC Cope & Bead Overlays
-  A wide range of Machined PVC Glass options with the look of Tru-Divided Windows
-  Your choice of Deluxe Vinyl-Clad Steel or Standard Tufflite plastic interior liner Laminated to a High-Density foam plastic core
-  Limited Lifetime Section Warranty

American Legends Series Doors will enhance the look and value of any home. They come standard 8', 9', 10', 16', and 18' Wide by 6'6", 7'0", 7'6" and 8'0 High. They are available in the designs shown and all doors are available with 6, 8, 12, and 16 Lite designs, as well as solid tops. Custom door heights are available, but custom widths are not available at this time.

Standard American Legends Designs:

Note:
16', and 18' Wide doors are made to look like double units.
