FIMBEL
ARCHITECTURAL DOORS
More in a Garage Door Since 1924.

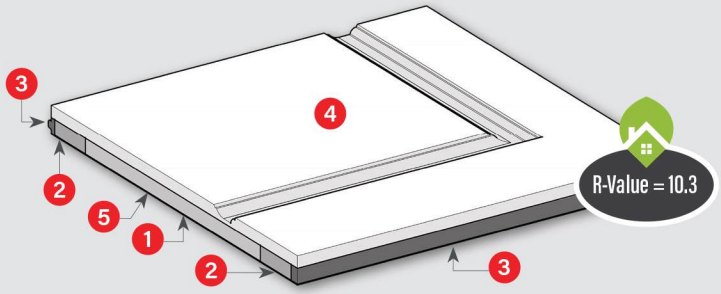
Jefferson PR12-A Full Arch

By carving the deep and elegant raised panel profile into a single sheet of ¾ " smooth, solid material, we carry the design from section to section without interruption, creating the illusion of a raised panel overlay door. Our patented construction allows us to build your door in 1" height and width increments. Manufactured from advanced materials, Fimbel doors are low-maintenance and provide enduring beauty. Blending craftsmanship and innovation, we bring your designs to life.

- **See more at www.fimbelads.com/gallery**
- **Traditional door styles also available**



PROTECTED BY ONE OR MORE U.S. PATENTS

Presidential Innovative Construction Features:

1. Laminated, insulated core to increase energy efficiency and reduce noise
2. Heavy-duty wood frame
3. Impenetrable composite surrounds create the interlocking tongue and groove to seal out the elements and increase sustainability for maximum protection
4. Precision-machined architectural relief in solid ¾" high impact composite face
5. High-impact prefinished interior cover to protect your door (optional composite interior backer)
6. Traditional style grille with optional interior grille
7. Standard glass section profile: V-Grille

- Overall section thickness is 1 ¾"
- Fully-customizable designs for solid sections and glass sections
- Standard: 3 sections with customizable height, width and top options
- Slab doors available (consult dealer)
